        <h3>Solving Problems in the American Banking System</h3>
```

<p>Computer science has given cashiers everywhere many ways to minimize numbers of coins due: greedy algorithms.

According to the National Institute of Standards and Technology (NIST), a greedy algorithm is one “that always takes the best immediate, or local, solution while finding an answer. Greedy algorithms find the overall, or globally, optimal solution for some optimization problems, but may find less-than-optimal solutions for some instances of other problems.” </p>

# Output / Website :

The screenshot displays a web browser window with a resume website for a first-year student named Vansh Nain. The website has a green header with navigation links for Home, About, Skills, Projects, and Contact. Below the header is a circular profile picture of Vansh Nain, followed by his name "Vansh Nain" and his title "B.Tech 1st Year – CSE (AI & ML)". A subtitle "Aspiring AI Engineer | Tech Enthusiast" is also present. The main content area features a section titled "About Me" with a bio describing Vansh's passion for technology and AI, and his goal to become a proficient AI engineer. Another section titled "Skills" lists basic programming languages and skills in Web Development.

**About Me**

---

Hello! I am Vansh Nain, a first-year student in B.Tech CSE (AI & ML) at KIET. I have a passion for technology and artificial intelligence. In my free time, I enjoy coding, reading about the latest tech trends, and exploring machine learning projects. My goal is to become a proficient AI engineer and contribute to innovative solutions in the field. I love problem-solving and am always eager to learn new skills.

**Skills**
